If you have [additional Facebook profiles](#), you can [download a copy of your Facebook information](#) for each of your profiles using the **Download Your Information** tool.

Please note, some information collected from your additional profiles, including ads data, can only be accessed by downloading your Facebook information for your main profile, which is the first profile you create when you sign up for Facebook.

Download a copy of your Facebook data for your profile

1. Switch to the profile that you want to download information from, then click your profile photo in the top right of Facebook.
2. Select **Settings & privacy**, then click **Settings**.
3. In the left column, click **Your Facebook Information**.
4. Go to **Download Profile Information**, then click **View**.
5. To add or remove categories of data from your request, click the boxes on the right.
6. Select other options, including:
 - The format of your download request.
 - The quality of photos, videos and other media.
 - A specific date range of information. If you don't select a date range, you'll request all the information for the categories you've selected.
7. Click **Create File** to confirm the download request.

After you've made a download request, it will appear as **Pending** in the **Available Copies** section of the **Download Your Information** tool. It may take several days for us to finish preparing your download request.

Once we've finished preparing your download request, we'll send a notification letting you know it's ready.

Download a copy of the data you requested

1. Go to the **Available Copies** section of the **Download Your Information** tool.
2. Click **Download** and enter your password.

You can also click **Show more** to view information about your download request, such as the format and when it will expire.

Note: You can always view your [Privacy Shortcuts](#) to learn about the ways you can control your data and privacy on Facebook. If you want to review recent activity on your Facebook profile or want to review your Facebook profile information, you can use the [Access Your Information](#) tool.
